General Info

Years of Production	2024 -
Manufactured in	Germany
Current Status	Produced
Body Style	Liftback

Range and Efficiency

Range EPA	No data
Range WLTP TEL	595 km
Range WLTP TEH	No data
Efficiency per 100 km	17 kWh
Efficiency per 1 km	170 Wh

Battery and Charging

Battery Capacity Nominal	91 kWh
Battery Capacity Usable	86 kWh
Max Charging Power AC	11 kW
Max Charging Power DC	200 kW
Charge Port	No data

Performance

Drive Type	AWD
Motor Power	250 kW (335 hp)
Motor Torque	679 Nm
Acceleration 0-100 km/h	5.4 sec
Top Speed	180 km/h

Dimensions

Length	4961 mm
Width with mirrors	2141 mm
Width w/o mirrors	1862 mm
Height	1535 mm
Wheelbase	2971 mm

Cargo and Towing

Number of Seats	5
Curb Weight	2328 kg
Cargo Volume Trunk	532 l
Cargo Volume Max	1586 l
Cargo Volume Frunk	No data
Towing Capacity	No data

About Volkswagen ID.7 GTX

The Volkswagen ID.7 GTX is an all-electric all-wheel drive liftback. It came out in 2024. Brand new, the car starts around €63,155.

The Volkswagen ID.7 GTX has a 91 kWh battery pack, allowing it to travel up to 506 km on a single charge. The car has an average efficiency of 17 kWh per 100 km (or 170 Wh/km) — ranked №97 out of 667 electric vehicles.

How powerful is it? How fast does it accelerate?

The Volkswagen ID.7 GTX achieves a 0 to 60 mph acceleration in 5.2 seconds (placing it at №238 among 667 electric vehicles) and attains a maximum speed of 111 mph.

Its powertrain provides a power output of up to 250 kW (335 hp) and a torque of 501 lb-ft.

How far can it go on single charge? What is the real-world range?

Volkswagen ID.7 GTX achieves a How far can it go on single charge? What is the real-world range? of 283–345 miles, placing it at №96 among 667 electric vehicles. However, this range is subject to several influences:

- Speed: Traveling at higher speeds reduces battery life.
- Temperature: Extreme cold or hot weather can affect range.
- Terrain: Hilly or mountainous landscapes decrease range.
- Driving habits: Aggressive driving with frequent acceleration and braking consumes more energy.
- Feature usage: Climate control and media systems also influence range.

It's important to acknowledge that these are estimations, and your actual driving range may differ. Consider these factors when planning your trip and be ready for potential charging stops.

Utilize the [interactive EV Navigation map](#) for trip planning assistance.

What charging options are available? How long does it take to charge it?

The Volkswagen ID.7 GTX in the USA is equipped with a CCS Type 1 charging port. You can charge it conveniently at home using a standard outlet, or utilize any public AC charging station with the appropriate cable. However, the car's built-in charger (inverter) limits the maximum AC charging speed to 11 kW, which translates to roughly 36 miles of range added per hour.

For faster charging, use DC fast-charging stations. The Volkswagen ID.7 GTX supports a maximum DC charging rate of 200 kW, but it's important to note that battery temperature and current charge level can

affect the actual charging speed you'll experience.

To estimate charging time, rate, and cost, you can use [Green Cars Compare Charging Calculator](#).

How big is it? What are the dimensions (length, width, height)?

Here are the dimensions and weight for the Volkswagen ID.7 GTX:

- Length: 195.3 in
- Width: 84.3 in (including side mirrors) or 73.3 in (excluding side mirrors)
- Height: 60.4 in
- Wheelbase: 117 in (distance between the center of the front and rear wheels)
- Curb weight: 5132 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

The rear cargo area of the Volkswagen ID.7 GTX provides 18.8 cubic feet of space when the rear seats are upright (ranked №246 out of 667 electric vehicles).

Folding these seats down unlocks a maximum cargo capacity of 56 cubic feet (ranked №246 out of 667 electric vehicles).

The car doesn't have a "frunk" (front trunk).

Is it suitable for towing? What is the maximum towing capacity?

The Volkswagen ID.7 GTX can safely tow up to 2645 lbs, provided that the trailer has its own braking system.
