

Mercedes CLA 350 4MATIC (2025-...) (Europe)

[Car Page ↗](#)[Charging ↗](#)[FAQs ↗](#)[Video Reviews ↗](#)

General Info

Years of Production	2025 -
Market Availability	EU, USA
Country of Manufacture	Hungary
Current Status	Announced
Body Style	Sedan
Price Europe (New/Used)	€59000/No data

Range and Efficiency

Range EPA	671 km
Range WLTP	672-773 km
Range GCC	633 km
Battery (Usable/Nominal)	85/90 kWh
Efficiency (Energy/Range)	13.4 kWh/100 km
Efficiency (Range/Energy)	7.45 km/kWh

Charging

Architecture	800 V
Max AC Charging	11 kW
Max DC Charging	320 kW
Charge Port	CCS Type 2

Performance

Drive Type	AWD PMSM (front), PMSM (rear)
Motor (Power/Torque)	260 kW (349 hp)/515 Nm
Acceleration 0-100 km/h	4.9 s
Top Speed	210 km/h

Dimensions

Length	4723 mm
Width (with Mirrors/no Mirrors)	2021/1855 mm
Height	1468 mm
Wheelbase	2790 mm

Cargo and Towing

Number of Seats	5
Curb Weight	2135 kg
Cargo Volume (Trunk/Max/Frunk)	405/No data/101 l
Towing Capacity	1500 kg

About Mercedes CLA 350 4MATIC (2025-...)

Overview

The 2025 Mercedes CLA 350 4MATIC is set to electrify the premium compact segment, arriving as a super-stylish four-door coupe. This AWD stunner, built on Merc's new MMA platform, promises a blend of luxury, cutting-edge tech, and impressive performance. Key highlights for this specific trim include its potent dual-motor setup, a substantial 800V battery architecture for rapid charging, and a distinct, sporty appeal. With an announced new price around €59,000 in the EU, it's aiming to be a desirable electric package when it launches. It's definitely one to watch!

What's New for 2025?

For 2025, the CLA 350 4MATIC isn't just an update; it's a whole new electric chapter for Mercedes' compact star! Based heavily on the striking Concept CLA Class, it debuts the advanced MMA electric platform. This means a fresh design language inside and out, plus the introduction of the next-gen MB.OS infotainment system for a truly connected experience. The 350 4MATIC trim itself brings a specific dual-motor all-wheel-drive powertrain to the electric CLA lineup, promising a dynamic yet efficient drive. Get ready for a properly modern Merc!

Design & Exterior

The 2025 CLA 350 4MATIC boasts a head-turning, aerodynamic design, evolving the iconic four-door coupe silhouette with sleek lines and a modern EV face, likely featuring a distinctive grille panel and advanced LED lighting. Expect some sporty AMG-esque touches befitting the '350' badge. It measures up at 4723 mm long, 1855 mm wide (excluding mirrors), and a low-slung 1468 mm tall, giving it a purposeful stance on the road. This isn't just a car; it's a statement piece, ready to slice through the air with typical Mercedes elegance.

Interior, Tech & Cargo

Step inside the CLA 350 4MATIC and you're greeted by a tech-laden, luxurious cabin. Expect Mercedes' latest MBUX interface, possibly with a massive 'Superscreen' option, wrapped in high-quality materials. It's a strict five-seater, offering decent passenger comfort for its class. For your gear, there's a useful 405-litre boot, plus a very handy 101-litre frunk for charging cables or extra bits. While maximum cargo capacity with seats folded is yet to be confirmed, anticipate generous space. Standard Apple CarPlay and Android Auto will keep you connected seamlessly.

Performance & Driving Experience

The CLA 350 4MATIC is no slouch, rocketing from 0-100 km/h in a brisk 4.9 seconds! This punch comes from its dual Permanent Magnet Synchronous Motor setup (one front, one rear) delivering a combined 260 kW and a hefty 515 Nm of torque straight to all four wheels for cracking all-weather grip. Top speed is a respectable 210 km/h. Expect a sophisticated driving experience, blending agility with refined comfort, and various regenerative braking modes to tailor your drive. It should be both engaging on a twisty road and serene on the motorway.

Range, Battery & Charging

Packing an 85 kWh usable battery, the CLA 350 4MATIC offers a fantastic real-world range, estimated by Green Cars Compare at around 633 kilometres. Efficiency is also strong at 7.45 km/kWh. Thanks to its 800V architecture and CCS Type 2 port, DC fast charging is mega, peaking at 320 kW – Mercedes says you can add 400km of range in just 15 minutes! At home, the standard 11 kW AC charger will top it up overnight. Bi-directional charging capabilities, like Vehicle-to-Load (V2L), are also anticipated for this model.

Safety & Driver-Assistance Features

While Euro NCAP ratings for the 2025 CLA 350 4MATIC are pending its launch, expect a five-star performance given Mercedes' track record. It'll be brimming with safety tech. Standard features will likely include Active Brake Assist, Lane Keeping Assist, and attention assist. A comprehensive optional Driving Assistance Package should offer goodies like adaptive cruise control with stop & go, active steering assist, and enhanced blind-spot monitoring, making it a very safe cocoon on wheels. You're in good hands here!

Warranty & Maintenance Coverage

Owners of the 2025 CLA 350 4MATIC can expect Mercedes' standard European new vehicle warranty, typically 2 years with unlimited kilometres. The crucial high-voltage battery should be covered for a more extended period, likely 8 years or 160,000 kilometres, guaranteeing a minimum of 70% capacity. Powertrain components will fall under the vehicle warranty. Maintenance on EVs is generally lower than petrol cars, focusing on tyres, brakes, and software. Official details on specific maintenance packages for the EU will follow closer to launch.

How powerful is it? How fast does it accelerate?

The Mercedes CLA 350 4MATIC (2025-...) can accelerate from 0 to 60 mph in 4.8 seconds ([Nº32 out of 118 ranked positions](#), among 953 electric vehicles, with some cars sharing positions) and reach a top speed of 130 mph.

The car's powertrain delivers up to 260 kW (349 hp) of power and 380 lb-ft of torque.

How far can it go on single charge? What is the real-world range?

Real-world range of the Mercedes CLA 350 4MATIC (2025-...) is 393 miles ([Nº16 out of 264 ranked positions](#), among 953 electric vehicles, with some cars sharing positions) — depending on several factors, including:

- Speed: Higher speeds deplete the battery faster.
- Temperature: Extreme cold and hot weather impacts range.
- Terrain: Hilly or mountainous terrain reduces range.
- Driving style: Aggressive driving with frequent acceleration and braking consumes more energy.
- Use of features: Features like climate control and media system also affect range.

It's important to remember that these are just estimates, and your actual range may vary. It's always best to factor in these various factors when planning your trip and be prepared for potential charging stops.

Plan your trips using the [EV Navigation interactive map](#).

What charging options are available? How long does it take to

charge it?

In the USA Mercedes CLA 350 4MATIC (2025-...) has a CCS Type 1 charge port.

- You can charge it at home using a standard domestic socket or plug into any public AC charging station using the right cable. Keep in mind that the car's on-board charger (inverter) limits the maximum AC charging rate to 11 kW, which translates to approximately 46 miles of range added per hour of charging.
- For quicker charging, consider using a compatible DC fast-charging station. The car boasts a maximum charging rate of 320 kW, but remember that battery temperature and charge level can influence the actual speed you'll experience.

Estimate charging time, rate and cost using [EV Charging Calculator](#).

How big is it? What are the dimensions (length, width, height)?

Here are the dimensions and weight for the Mercedes CLA 350 4MATIC (2025-...):

- Length: 185.9 in
- Width: 79.6 in (including side mirrors) or 73 in (excluding side mirrors)
- Height: 57.8 in
- Wheelbase: 109.8 in (distance between the center of the front and rear wheels)
- Curb weight: 4707 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

Here's a breakdown of the Mercedes CLA 350 4MATIC (2025-...) cargo space:

- Trunk capacity: With the rear seats up, you get 14.3 cubic feet of cargo space in the back ([Nº111 out of 163 ranked positions](#), among 953 electric vehicles, with some cars sharing positions).
- Max cargo capacity: Fold down the rear seats, and you open up cubic feet of total cargo space ([Nº out of ranked positions](#), among 953 electric vehicles, with some cars sharing positions).
- Frunk capacity: The front trunk is called a "frunk", and it offers an additional 3.6 cubic feet for storing small items.

Is it suitable for towing? What is the maximum towing capacity?

The Mercedes CLA 350 4MATIC (2025-...) has a towing capacity (braked) of up to 3307 lbs (maximum weight the car can tow safely with a trailer that has its own brakes).
