

# MG MGS5 EV 64 kWh (2025-...) (Europe)

[Car Page ↗](#)[Charging ↗](#)[FAQs ↗](#)[Video Reviews ↗](#)

## General Info

Years of Production	2025 -
Market Availability	EU
Country of Manufacture	China
Current Status	Produced
Body Style	SUV
Price Europe (New/Used)	€36605/No data

## Range and Efficiency

Range EPA	No data
Range WLTP	463-480 km
Range GCC	412 km
Battery (Usable/Nominal)	62.1/64 kWh
Efficiency (Energy/Range)	15.1 kWh/100 km
Efficiency (Range/Energy)	6.63 km/kWh

## Charging

Architecture	400 V
Max AC Charging	6.6 kW
Max DC Charging	139 kW
Charge Port	CCS Type 2

## Performance

Drive Type	RWD PMSM
Motor (Power/Torque)	170 kW (228 hp)/350 Nm
Acceleration 0-100 km/h	6.3 s
Top Speed	175 km/h

## Dimensions

Length	4476 mm
Width (with Mirrors/no Mirrors)	2094/1849 mm
Height	1621 mm
Wheelbase	2730 mm

## Cargo and Towing

Number of Seats	5
Curb Weight	2125 kg
Cargo Volume (Trunk/Max/Frunk)	453/1441/No data l
Towing Capacity	500 kg

# About MG MGS5 EV 64 kWh (2025-...)

## Overview

The 2025 MG MGS5 64 kWh arrives as a compelling electric SUV, aiming to shake up the European market with its blend of practicality and performance. This specific trim, priced from around €36,605 new, stands out with a generous battery and punchy rear-wheel-drive setup. It's pitched as a family-friendly EV that doesn't skimp on modern tech or driving enjoyment, offering a strong value proposition. MG is clearly targeting those seeking an accessible yet well-equipped electric journey, making the MGS5 a notable contender in its segment.

## What's New for 2025?

Hitting the scene in 2025, this 64 kWh variant of the MG MGS5 is a fresh face, bringing MG's latest EV know-how to the popular electric SUV segment in Europe. As a new configuration launching this year, it embodies MG's current design language and technological advancements. Expect the latest MG Pilot driver assistance systems, an updated infotainment experience, and powertrain refinements focused on delivering competitive range and features tailored for the European market. This model signifies MG's push to offer contemporary and capable electric mobility.

## Design & Exterior

The MG MGS5 64 kWh sports a contemporary SUV silhouette that's both stylish and functional. It measures 4476 mm in length, 1849 mm in width (excluding mirrors), and 1621 mm in height, riding on a 2730 mm wheelbase for balanced proportions and a solid road presence. Expect sharp lines, distinctive LED lighting signatures front and rear, and smart alloy wheels designed to complement its modern aesthetic. This trim level showcases MG's current design direction, ensuring it looks the part of a capable electric vehicle for European roads.

## Interior, Tech & Cargo

Step inside the MGS5 64 kWh, and you'll find a cabin designed for modern families, seating five comfortably. The interior focuses on practicality with a user-friendly layout and materials chosen for durability and a contemporary feel. Tech-wise, a central touchscreen infotainment system, likely with Apple CarPlay and Android Auto, will be standard. For luggage, it offers a very usable 453 litres of boot space. Fold the rear seats down, and this expands to a capacious 1441 litres, though there's no frunk for additional front storage.

## Performance & Driving Experience

This MGS5 64 kWh isn't just about practicality; it delivers a surprisingly zesty performance. With its rear-wheel-drive layout powered by a single Permanent Magnet Synchronous Motor (PMSM), it serves up a lively 170 kW (around 231 PS) and a solid 350 Nm of torque. This translates to a brisk 0-100 km/h sprint in just 6.3 seconds and a top speed of 175 km/h. It's also rated for a 500 kg braked towing capacity. Expect a comfortable ride suited for daily commutes, with responsive handling and selectable regenerative braking modes.

## Range, Battery & Charging

The heart of the MGS5 64 kWh is its 62.1 kWh usable battery pack. This provides a Green Cars Compare estimated real-world range of around 412 km, making it well-suited for daily driving and longer trips. Energy efficiency is rated at a commendable 6.63 km/kWh. For charging, it uses a CCS Type 2 port. Standard AC charging is handled by a 6.6 kW on-board unit, allowing for convenient overnight top-ups. When DC fast charging is needed, it can accept up to 139 kW, significantly reducing pit-stop times.

## Safety & Driver-Assistance Features

While a specific Euro NCAP rating for this new 2025 MGS5 64 kWh was not available from the provided data, MG typically equips its vehicles with a comprehensive suite of safety technology. Expect the "MG Pilot" advanced driver-assistance system (ADAS) to be standard. This usually includes features like adaptive cruise control, lane-keeping assist, autonomous emergency braking, and blind-spot monitoring, all working to enhance driver confidence and passenger protection on European roads. Always check the latest official ratings when available.

## Warranty & Maintenance Coverage

MG generally offers a robust warranty package in Europe, often highlighted by a 7-year/150,000 km comprehensive vehicle warranty, which is a significant selling point. The crucial high-voltage battery typically receives similar coverage, often for 7 years or 150,000 km, with a guarantee against excessive degradation (e.g., maintaining at least 70% capacity). Powertrain components are usually covered under the main vehicle warranty. Specifics on complimentary maintenance can vary by market, but MG aims for reliable and cost-effective ownership for its EVs.

## How powerful is it? How fast does it accelerate?

The MG MGS5 EV 64 kWh (2025-...) achieves a 0 to 60 mph acceleration in 6 seconds (placing it at [Nº44 out of 119 ranked positions](#), among 979 electric vehicles, with some cars sharing positions) and attains a maximum speed of 109 mph.

Its powertrain provides a power output of up to 170 kW (228 hp) and a torque of 258 lb-ft.

## How far can it go on single charge? What is the real-world range?

MG MGS5 EV 64 kWh (2025-...) achieves a real-world range of 256 miles, placing it at [Nº121 among 266 ranked positions](#). However, this range is subject to several influences:

- Speed: Traveling at higher speeds reduces battery life.
- Temperature: Extreme cold or hot weather can affect range.
- Terrain: Hilly or mountainous landscapes decrease range.
- Driving habits: Aggressive driving with frequent acceleration and braking consumes more energy.
- Feature usage: Climate control and media systems also influence range.

It's important to acknowledge that these are estimations, and your actual driving range may differ. Consider these factors when planning your trip and be ready for potential charging stops.

Utilize the [interactive EV Navigation map](#) for trip planning assistance.

## What charging options are available? How long does it take to

## charge it?

The MG MGS5 EV 64 kWh (2025-...) in the USA comes with a CCS Type 2 charging port. It can be charged at home using a standard domestic socket or at any public AC charging station with the compatible cable. It's important to note that the car's on-board charger (inverter) limits the maximum AC charging rate to 6.6 kW, resulting in approximately 24 miles of range added per hour of charging.

For significantly faster charging, public DC fast-charging stations are available. Although the car can achieve a maximum DC charging rate of 139 kW, factors such as battery temperature and charge level may affect the actual charging speed.

Use [EV Charging Calculator](#) to estimate charging time, rate, and cost.

## How big is it? What are the dimensions (length, width, height)?

The size and weight specifications for MG MGS5 EV 64 kWh (2025-...) are as follows:

- Length: 176.2 in
- Width: 82.4 in (including side mirrors) or 72.8 in (excluding side mirrors)
- Height: 63.8 in
- Wheelbase: 107.5 in (distance between the center of the front and rear wheels)
- Curb weight: 4685 lbs (weight of the empty car, no people or cargo)

## How much cargo space does it offer? Does it have a front trunk?

The rear cargo area of the MG MGS5 EV 64 kWh (2025-...) provides 16 cubic feet of space when the rear seats are upright ([Nº100 out of 166 ranked positions](#), among 979 electric vehicles, with some cars sharing positions).

Folding these seats down unlocks a maximum cargo capacity of 50.9 cubic feet ([Nº109 out of 201 ranked positions](#), among 979 electric vehicles, with some cars sharing positions).

The car doesn't have a "frunk" (front trunk).

## Is it suitable for towing? What is the maximum towing capacity?

The MG MGS5 EV 64 kWh (2025-...) is officially rated to tow 1102 lbs. This applies to trailers equipped with brakes.
