[FAQs ↗](#)
[Video Reviews ↗](#)

### General Info

Years of Production	2024 -
Manufactured in	Germany
Current Status	Produced
Body Style	Liftback

### Range and Efficiency

Range EPA	No data
Range WLTP TEL	370 mi
Range WLTP TEH	No data
Efficiency per 100 mi	27.4 kWh
Efficiency per mile	274 Wh

### Battery and Charging

Battery Capacity Nominal	91 kWh
Battery Capacity Usable	86 kWh
Max Charging Power AC	11 kW
Max Charging Power DC	200 kW
Charge Port	No data

### Performance

Drive Type	AWD
Motor Power	250 kW (335 hp)
Motor Torque	501 lb-ft
Acceleration 0-60 mph	5.2 sec
Top Speed	111 mph

### Dimensions

Length	195.3 in
Width with mirrors	84.3 in
Width w/o mirrors	73.3 in
Height	60.4 in
Wheelbase	117 in

### Cargo and Towing

Number of Seats	5
Curb Weight	5132 lb
Cargo Volume Trunk	18.8 ft3
Cargo Volume Max	56 ft3
Cargo Volume Frunk	No data
Towing Capacity	2645 lb

## About Volkswagen ID.7 GTX

The Volkswagen ID.7 GTX is an all-electric all-wheel drive liftback. It came out in 2024. The car is not available on the US market.

The Volkswagen ID.7 GTX has a 91 kWh battery pack, allowing it to travel up to 314 mi on a single charge. The car has an average efficiency of 27.4 kWh per 100 miles (or 274 Wh/mile) — ranked №96 out of 667 electric vehicles.

### How powerful is it? How fast does it accelerate?

The Volkswagen ID.7 GTX achieves a 0 to 60 mph acceleration in 5.2 seconds (placing it at №238 among 667 electric vehicles) and attains a maximum speed of 111 mph.

Its powertrain provides a power output of up to 250 kW (335 hp) and a torque of 501 lb-ft.

### How far can it go on single charge? What is the real-world range?

Volkswagen ID.7 GTX achieves a How far can it go on single charge? What is the real-world range? of 283–345 miles, placing it at №96 among 667 electric vehicles. However, this range is subject to several influences:

- Speed: Traveling at higher speeds reduces battery life.
- Temperature: Extreme cold or hot weather can affect range.
- Terrain: Hilly or mountainous landscapes decrease range.
- Driving habits: Aggressive driving with frequent acceleration and braking consumes more energy.
- Feature usage: Climate control and media systems also influence range.

It's important to acknowledge that these are estimations, and your actual driving range may differ. Consider these factors when planning your trip and be ready for potential charging stops.

Utilize the [interactive EV Navigation map](#) for trip planning assistance.

### What charging options are available? How long does it take to charge it?

The Volkswagen ID.7 GTX in the USA is equipped with a CCS Type 1 charging port. You can charge it conveniently at home using a standard outlet, or utilize any public AC charging station with the appropriate cable. However, the car's built-in charger (inverter) limits the maximum AC charging speed to 11 kW, which translates to roughly 36 miles of range added per hour.

For faster charging, use DC fast-charging stations. The Volkswagen ID.7 GTX supports a maximum DC charging rate of 200 kW, but it's important to note that battery temperature and current charge level can

affect the actual charging speed you'll experience.

To estimate charging time, rate, and cost, you can use [Green Cars Compare Charging Calculator](#).

## How big is it? What are the dimensions (length, width, height)?

Here are the dimensions and weight for the Volkswagen ID.7 GTX:

- Length: 195.3 in
- Width: 84.3 in (including side mirrors) or 73.3 in (excluding side mirrors)
- Height: 60.4 in
- Wheelbase: 117 in (distance between the center of the front and rear wheels)
- Curb weight: 5132 lbs (weight of the empty car, no people or cargo)

## How much cargo space does it offer? Does it have a front trunk?

The rear cargo area of the Volkswagen ID.7 GTX provides 18.8 cubic feet of space when the rear seats are upright (ranked №246 out of 667 electric vehicles).

Folding these seats down unlocks a maximum cargo capacity of 56 cubic feet (ranked №246 out of 667 electric vehicles).

The car doesn't have a "frunk" (front trunk).

## Is it suitable for towing? What is the maximum towing capacity?

The Volkswagen ID.7 GTX can safely tow up to 2645 lbs, provided that the trailer has its own braking system.
