General Info

Years of Production	2024 -
Available in the USA	No
Country of Manufacture	China
Current Status	Announced
Body Style	SUV
Price USA (New/Used)	\$No data/No data

Range and Efficiency

Range EPA	No data
Range WLTP	329 mi
Range GCC	280 mi
Battery (Usable/Nominal)	108.8/114 kWh
Efficiency (Energy/Range)	38.9 kWh/100 mi
Efficiency (Range/Energy)	2.57 mi/kWh

Charging

Architecture	400 V
Max AC Charging	11 kW
Max DC Charging	170 kW
Charge Port	CCS Type 2

Performance

Drive Type	AWD 2 motors: PMSM (front), PMSM (rear)	
Motor (Power/Torque)	380 kW (510 hp)/516 lb-ft	
Acceleration 0-60 mph	4.7 s	
Top Speed	118 mph	

Dimensions

Length	195.7 in
Width (with Mirrors/no Mirrors)	83.9/77 in
Height	68.7 in
Wheelbase	111 in

Cargo and Towing

Number of Seats	7
Curb Weight	5798 lb
Cargo Volume (Trunk/Max/Frunk)	8.3/58.4/No data ft3
Towing Capacity	3307 lb

About BYD Tang Flagship (2024-...)

The BYD Tang Flagship (2024-...) is an all-electric all-wheel drive SUV. Production of the car hasn't started yet. The Flagship is anticipated to replace the currently produced BYD Tang Flagship (2022-2024).

The BYD Tang Flagship (2024-...) has a 114 kWh battery pack, allowing it to travel up to 280 mi on a single charge — ranked №251 out of 843 electric vehicles.

How powerful is it? How fast does it accelerate?

The BYD Tang Flagship (2024-...) can accelerate from 0 to 60 mph in 4.7 seconds (№30 out of 118 ranked positions, among 843 electric vehicles, with some cars sharing positions) and reach a top speed of 118 mph.

The car's powertrain delivers up to 380 kW (510 hp) of power and 516 lb-ft of torque.

How far can it go on single charge? What is the real-world range?

Real-world range of the BYD Tang Flagship (2024-...) is 280 miles (№89 out of 253 ranked positions, among 843 electric vehicles, with some cars sharing positions) — depending on several factors, including:

- Speed: Higher speeds deplete the battery faster.
- Temperature: Extreme cold and hot weather impacts range.
- Terrain: Hilly or mountainous terrain reduces range.
- Driving style: Aggressive driving with frequent acceleration and braking consumes more energy.
- Use of features: Features like climate control and media system also affect range.

It's important to remember that these are just estimates, and your actual range may vary. It's always best to factor in these various factors when planning your trip and be prepared for potential charging stops.

Plan your trips using the [EV Navigation interactive map](#).

What charging options are available? How long does it take to charge it?

In the USA BYD Tang Flagship (2024-...) has a CCS Type 2 charge port.

- You can charge it at home using a standard domestic socket or plug into any public AC charging station using the right cable. Keep in mind that the car's on-board charger (inverter) limits the maximum AC charging rate to 11 kW, which translates to approximately 25 miles of range added per hour of charging.
- For quicker charging, consider using a compatible DC fast-charging station. The car boasts a maximum charging rate of 170 kW, but remember that battery temperature and charge level can influence the actual speed you'll experience.

Estimate charging time, rate and cost using [EV Charging Calculator](#).

How big is it? What are the dimensions (length, width, height)?

Here are the dimensions and weight for the BYD Tang Flagship (2024-...):

- Length: 195.7 in
- Width: 83.9 in (including side mirrors) or 77 in (excluding side mirrors)
- Height: 68.7 in
- Wheelbase: 111 in (distance between the center of the front and rear wheels)
- Curb weight: 5798 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

Here's a breakdown of the BYD Tang Flagship (2024-...) cargo space:

- Trunk capacity: With the rear seats up, you get 8.3 cubic feet of cargo space in the back ([Nº139 out of 154 ranked positions](#), among 843 electric vehicles, with some cars sharing positions).
- Max cargo capacity: Fold down the rear seats, and you open up 58.4 cubic feet of total cargo space ([Nº61 out of 178 ranked positions](#), among 843 electric vehicles, with some cars sharing positions).
- Frunk capacity: The car doesn't have a "frunk" (front trunk).

Is it suitable for towing? What is the maximum towing capacity?

The BYD Tang Flagship (2024-...) has a towing capacity (braked) of up to 3307 lbs (maximum weight the car can tow safely with a trailer that has its own brakes).
