General Info

Years of Production	2019 - 2021
Available in the USA	No
Country of Manufacture	China, Indonesia, India
Current Status	Discontinued
Body Style	SUV
Price USA (New/Used)	\$No data/No data

Range and Efficiency

Range EPA	No data
Range WLTP	163 mi
Range GCC	147 mi
Battery (Usable/Nominal)	42.5/44.5 kWh
Efficiency (Energy/Range)	28.9 kWh/100 mi
Efficiency (Range/Energy)	3.46 mi/kWh

Charging

Architecture	400 V
Max AC Charging	6.6 kW
Max DC Charging	76 kW
Charge Port	CCS Type 2

Performance

Drive Type	FWD 1 motor: PMSM
Motor (Power/Torque)	105 kW (141 hp)/260 lb-ft
Acceleration 0-60 mph	7.9 s
Top Speed	87 mph

Dimensions

Length	169.8 in
Width (with Mirrors/no Mirrors)	No data
Height	64.7 in
Wheelbase	101.8 in

Cargo and Towing

Number of Seats	5
Curb Weight	3452 lb
Cargo Volume (Trunk/Max/Frunk)	15.8/No data/No data ft3
Towing Capacity	No data

About MG ZS EV Gen 1 (2019-2021)

The MG ZS EV Gen 1 (2019-2021) is an all-electric front-wheel drive SUV. It came out in 2019. MG stopped making the Gen 1 in 2021 and replaced it with the MG ZS EV Standard Range (2021-...). The car is not available on the US market.

The MG ZS EV Gen 1 (2019-2021) has a 44.5 kWh battery pack, allowing it to travel up to 147 mi on a single charge — ranked №730 out of 833 electric vehicles.

How powerful is it? How fast does it accelerate?

The MG ZS EV Gen 1 (2019-2021) achieves a 0 to 60 mph acceleration in 7.9 seconds (placing it at №62 out of 118 ranked positions, among 833 electric vehicles, with some cars sharing positions) and attains a maximum speed of 87 mph.

Its powertrain provides a power output of up to 105 kW (141 hp) and a torque of 260 lb-ft.

How far can it go on single charge? What is the real-world range?

MG ZS EV Gen 1 (2019-2021) achieves a real-world range of 147 miles, placing it at №206 among 253 ranked positions. However, this range is subject to several influences:

- Speed: Traveling at higher speeds reduces battery life.
- Temperature: Extreme cold or hot weather can affect range.
- Terrain: Hilly or mountainous landscapes decrease range.
- Driving habits: Aggressive driving with frequent acceleration and braking consumes more energy.
- Feature usage: Climate control and media systems also influence range.

It's important to acknowledge that these are estimations, and your actual driving range may differ. Consider these factors when planning your trip and be ready for potential charging stops.

Utilize the [interactive EV Navigation map](#) for trip planning assistance.

What charging options are available? How long does it take to charge it?

The MG ZS EV Gen 1 (2019-2021) in the USA comes with a CCS Type 2 charging port. It can be charged at home using a standard domestic socket or at any public AC charging station with the compatible cable. It's important to note that the car's on-board charger (inverter) limits the maximum AC charging rate to 6.6 kW, resulting in approximately 21 miles of range added per hour of charging.

For significantly faster charging, public DC fast-charging stations are available. Although the car can achieve a maximum DC charging rate of 76 kW, factors such as battery temperature and charge level may affect the actual charging speed.

Use [EV Charging Calculator](#) to estimate charging time, rate, and cost.

How big is it? What are the dimensions (length, width, height)?

The size and weight specifications for MG ZS EV Gen 1 (2019-2021) are as follows:

- Length: 169.8 in
- Width: in (including side mirrors) or 71.2 in (excluding side mirrors)
- Height: 64.7 in
- Wheelbase: 101.8 in (distance between the center of the front and rear wheels)
- Curb weight: 3452 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

The rear cargo area of the MG ZS EV Gen 1 (2019-2021) provides 15.8 cubic feet of space when the rear seats are upright ([Nº95 out of 154 ranked positions](#), among 833 electric vehicles, with some cars sharing positions).

Folding these seats down unlocks a maximum cargo capacity of cubic feet ([Nº out of ranked positions](#), among 833 electric vehicles, with some cars sharing positions).

The car doesn't have a "frunk" (front trunk).

Is it suitable for towing? What is the maximum towing capacity?

The car isn't officially rated for towing.
