[FAQs ↗](#)

[Video Reviews ↗](#)

General Info

Years of Production	2024 -
Available in the USA	No
Country of Manufacture	France
Current Status	Produced
Body Style	Hatchback
Price USA (New/Used)	\$No data/No data

Range and Efficiency

Range EPA	No data
Range WLTP	236 mi
Range GCC	201 mi
Battery (Usable/Nominal)	52/55 kWh
Efficiency (Energy/Range)	25.9 kWh/100 mi
Efficiency (Range/Energy)	3.87 mi/kWh

Charging

Architecture	400 V
Max AC Charging	11 kW
Max DC Charging	100 kW
Charge Port	CCS Type 2

Performance

Drive Type	FWD: EESM
Motor (Power/Torque)	130 kW (174 hp)/210 lb-ft
Acceleration 0-60 mph	7.1 s
Top Speed	99 mph

Dimensions

Length	157.4 in
Width (with Mirrors/no Mirrors)	79.5/71.8 in
Height	59.5 in
Wheelbase	99.8 in

Cargo and Towing

Number of Seats	5
Curb Weight	3261 lb
Cargo Volume (Trunk/Max/Frunk)	11.5/39.1/No data ft3
Towing Capacity	No data

About Alpine A290 180 hp (2024-...)

The Alpine A290 180 hp (2024-...) is an all-electric front-wheel drive hatchback. It came out in 2024. The car is not available on the US market.

The Alpine A290 180 hp (2024-...) has a 55 kWh battery pack, allowing it to travel up to 201 mi on a single charge — ranked №594 out of 816 electric vehicles.

How powerful is it? How fast does it accelerate?

The Alpine A290 180 hp (2024-...) is equipped with a powertrain that delivers up to 130 kW (174 hp) of power and 210 lb-ft of torque.

This enables a 0 to 60 mph acceleration in 7.1 seconds (№54 out of 116 ranked positions, among 816 electric vehicles, with some cars sharing positions) and a top speed of 99 mph.

How far can it go on single charge? What is the real-world range?

The estimated real-world range for Alpine A290 180 hp (2024-...) is 201 miles, ranking it №163 out of 249 ranked positions. Several conditions can influence this range:

- Speed: The battery drains faster at higher speeds.
- Temperature: Extreme temperatures can impact range.
- Terrain: Range is reduced on hilly or mountainous terrain.
- Driving style: Aggressive driving behaviors, such as frequent acceleration and braking, decrease efficiency.
- Feature utilization: Climate control and media system usage also affect range.

These figures are approximations, and your actual driving range may vary. When planning trips, consider these factors and be prepared for potential charging stops.

For trip planning assistance, utilize the [EV Navigation interactive map](#).

What charging options are available? How long does it take to charge it?

The Alpine A290 180 hp (2024-...) in the USA is equipped with a CCS Type 2 charging port. You can charge it conveniently at home using a standard outlet, or utilize any public AC charging station with the appropriate cable. However, the car's built-in charger (inverter) limits the maximum AC charging speed to 11 kW, which translates to roughly 38 miles of range added per hour.

For faster charging, use DC fast-charging stations. The Alpine A290 180 hp (2024-...) supports a maximum DC charging rate of 100 kW, but it's important to note that battery temperature and current charge level can affect the actual charging speed you'll experience.

To estimate charging time, rate, and cost, you can use [EV Charging Calculator](#).

How big is it? What are the dimensions (length, width, height)?

Alpine A290 180 hp (2024-...) comes in the following dimensions:

- Length: 157.4 in
- Width: 79.5 in (including side mirrors) or 71.8 in (excluding side mirrors)
- Height: 59.5 in
- Wheelbase: 99.8 in (distance between the center of the front and rear wheels)
- Curb weight: 3261 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

Behind the rear seats of the Alpine A290 180 hp (2024-...), you'll find 11.5 cubic feet of storage space ([Nº126 out of 155 ranked positions](#), among 816 electric vehicles, with some cars sharing positions).

Folding down the rear seats expands the total cargo capacity to 39.1 cubic feet ([Nº136 out of 173 ranked positions](#), among 816 electric vehicles, with some cars sharing positions).

The car doesn't have a "frunk" (front trunk).

Is it suitable for towing? What is the maximum towing capacity?

The car isn't officially rated for towing.
