[FAQs ↗](#)

[Video Reviews ↗](#)

General Info

Years of Production	2024 -
Available in the USA	No
Country of Manufacture	China, Malaysia
Current Status	Produced
Body Style	SUV
Price USA (New/Used)	\$No data/No data

Range and Efficiency

Range EPA	No data
Range WLTP	267 mi
Range GCC	227 mi
Battery (Usable/Nominal)	61/64 kWh
Efficiency (Energy/Range)	26.9 kWh/100 mi
Efficiency (Range/Energy)	3.72 mi/kWh

Charging

Architecture	400 V
Max AC Charging	9.9 kW
Max DC Charging	80 kW
Charge Port	CCS Type 2

Performance

Drive Type	FWD: PMSM
Motor (Power/Torque)	150 kW (201 hp)/251 lb-ft
Acceleration 0-60 mph	6.9 s
Top Speed	107 mph

Dimensions

Length	174.2 in
Width (with Mirrors/no Mirrors)	No data
Height	62.5 in
Wheelbase	103.5 in

Cargo and Towing

Number of Seats	5
Curb Weight	3770 lb
Cargo Volume (Trunk/Max/Frunk)	10.6/38.1/0.7 ft3
Towing Capacity	1653 lb

About Omoda E5 (2024-...)

The Omoda E5 (2024-...) is an all-electric front-wheel drive SUV. It came out in 2024. The car is not available on the US market.

The Omoda E5 (2024-...) has a 64 kWh battery pack, allowing it to travel up to 227 mi on a single charge — ranked N°481 out of 816 electric vehicles.

How powerful is it? How fast does it accelerate?

The Omoda E5 (2024-...) is equipped with a powertrain that delivers up to 150 kW (201 hp) of power and 251 lb-ft of torque.

This enables a 0 to 60 mph acceleration in 6.9 seconds (N°52 out of 116 ranked positions, among 816 electric vehicles, with some cars sharing positions) and a top speed of 107 mph.

How far can it go on single charge? What is the real-world range?

The estimated real-world range for Omoda E5 (2024-...) is 227 miles, ranking it N°140 out of 249 ranked positions. Several conditions can influence this range:

- Speed: The battery drains faster at higher speeds.
- Temperature: Extreme temperatures can impact range.
- Terrain: Range is reduced on hilly or mountainous terrain.
- Driving style: Aggressive driving behaviors, such as frequent acceleration and braking, decrease efficiency.
- Feature utilization: Climate control and media system usage also affect range.

These figures are approximations, and your actual driving range may vary. When planning trips, consider these factors and be prepared for potential charging stops.

For trip planning assistance, utilize the [EV Navigation interactive map](#).

What charging options are available? How long does it take to charge it?

The Omoda E5 (2024-...) in the USA is equipped with a CCS Type 2 charging port. You can charge it conveniently at home using a standard outlet, or utilize any public AC charging station with the appropriate cable. However, the car's built-in charger (inverter) limits the maximum AC charging speed to 9.9 kW, which translates to roughly 33 miles of range added per hour.

For faster charging, use DC fast-charging stations. The Omoda E5 (2024-...) supports a maximum DC charging rate of 80 kW, but it's important to note that battery temperature and current charge level can affect the actual charging speed you'll experience.

To estimate charging time, rate, and cost, you can use [EV Charging Calculator](#).

How big is it? What are the dimensions (length, width, height)?

Omoda E5 (2024-...) comes in the following dimensions:

- Length: 174.2 in
- Width: in (including side mirrors) or 72 in (excluding side mirrors)
- Height: 62.5 in
- Wheelbase: 103.5 in (distance between the center of the front and rear wheels)
- Curb weight: 3770 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

Behind the rear seats of the Omoda E5 (2024-...), you'll find 10.6 cubic feet of storage space ([Nº131 out of 155 ranked positions](#), among 816 electric vehicles, with some cars sharing positions).

Folding down the rear seats expands the total cargo capacity to 38.1 cubic feet ([Nº141 out of 173 ranked positions](#), among 816 electric vehicles, with some cars sharing positions).

Frunk capacity: The front trunk is called a "frunk", and it offers an additional 0.7 cubic feet for storing small items.

Is it suitable for towing? What is the maximum towing capacity?

The Omoda E5 (2024-...) can safely tow up to 1653 lbs, provided that the trailer has its own braking system.
