About Audi Q6 Sportback e-tron quattro (2025-...)

The Audi Q6 Sportback e-tron quattro (2025-...) is an all-electric all-wheel drive SUV. Production of the car hasn't started yet.

The Audi Q6 Sportback e-tron quattro (2025-...) has a 100 kWh battery pack, allowing it to travel up to 336 mi on a single charge — ranked №53 out of 833 electric vehicles.

How powerful is it? How fast does it accelerate?

The Audi Q6 Sportback e-tron quattro (2025-...) achieves a 0 to 60 mph acceleration in 5.7 seconds (placing it at Nº40 out of 118 ranked positions, among 833 electric vehicles, with some cars sharing positions) and attains a maximum speed of 130 mph.

Its powertrain provides a power output of up to 285 kW (382 hp) and a torque of 631 lb-ft.

How far can it go on single charge? What is the real-world range?

Audi Q6 Sportback e-tron quattro (2025-...) achieves a real-world range of 336 miles, placing it at №37 among 253 ranked positions. However, this range is subject to several influences:

- Speed: Traveling at higher speeds reduces battery life.
- Temperature: Extreme cold or hot weather can affect range.
- Terrain: Hilly or mountainous landscapes decrease range.
- Driving habits: Aggressive driving with frequent acceleration and braking consumes more energy.
- Feature usage: Climate control and media systems also influence range.

It's important to acknowledge that these are estimations, and your actual driving range may differ. Consider these factors when planning your trip and be ready for potential charging stops.

Utilize the interactive EV Navigation map for trip planning assistance.

What charging options are available? How long does it take to charge it?

The Audi Q6 Sportback e-tron quattro (2025-...) in the USA comes with a CCS Type 2 charging port. It can be charged at home using a standard domestic socket or at any public AC charging station with the compatible cable. It's important to note that the car's on-board charger (inverter) limits the maximum AC charging rate to 11 kW, resulting in approximately 35 miles of range added per hour of charging.

For significantly faster charging, public DC fast-charging stations are available. Although the car can achieve a maximum DC charging rate of 270 kW, factors such as battery temperature and charge level may affect the actual charging speed.

Use EV Charging Calculator to estimate charging time, rate, and cost.

How big is it? What are the dimensions (length, width, height)?

The size and weight specifications for Audi Q6 Sportback e-tron quattro (2025-...) are as follows:

• Length: 187.8 in

• Width: 86.3 in (including side mirrors) or 76.3 in (excluding side mirrors)

• Height: 65.6 in

• Wheelbase: 113.7 in (distance between the center of the front and rear wheels)

• Curb weight: 5291 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

The rear cargo area of the Audi Q6 Sportback e-tron quattro (2025-...) provides 18 cubic feet of space when the rear seats are upright (Nº75 out of 154 ranked positions, among 833 electric vehicles, with some cars sharing positions).

Folding these seats down unlocks a maximum cargo capacity of 48.5 cubic feet (№104 out of 178 ranked positions, among 833 electric vehicles, with some cars sharing positions).

In addition, the car has a frunk, a front compartment with 2.3 cubic feet dedicated to smaller items.

Is it suitable for towing? What is the maximum towing capacity?

The Audi Q6 Sportback e-tron quattro (2025-...) is officially rated to tow 5291 lbs. This applies to trailers equipped with brakes.
