About Peugeot e-408 58 kWh (2024-...)

The Peugeot e-408 58 kWh (2024-...) is an all-electric front-wheel drive SUV. It came out in 2024. The car is not available on the US market.

The Peugeot e-408 58 kWh (2024-...) has a 58.2 kWh battery pack, allowing it to travel up to 239 mi on a single charge — ranked №420 out of 843 electric vehicles.

How powerful is it? How fast does it accelerate?

The Peugeot e-408 58 kWh (2024-...) is equipped with a powertrain that delivers up to 157 kW (211 hp) of power and 254 lb-ft of torque.

This enables a 0 to 60 mph acceleration in 6.9 seconds (Nº52 out of 118 ranked positions, among 843 electric vehicles, with some cars sharing positions) and a top speed of 100 mph.

How far can it go on single charge? What is the real-world range?

The estimated real-world range for Peugeot e-408 58 kWh (2024-...) is 239 miles, ranking it №129 out of 253 ranked positions. Several conditions can influence this range:

- Speed: The battery drains faster at higher speeds.
- Temperature: Extreme temperatures can impact range.
- Terrain: Range is reduced on hilly or mountainous terrain.
- Driving style: Aggressive driving behaviors, such as frequent acceleration and braking, decrease efficiency.
- Feature utilization: Climate control and media system usage also affect range.

These figures are approximations, and your actual driving range may vary. When planning trips, consider these factors and be prepared for potential charging stops.

For trip planning assistance, utilize the EV Navigation interactive map.

What charging options are available? How long does it take to charge it?

The Peugeot e-408 58 kWh (2024-...) in the USA is equipped with a CCS Type 2 charging port. You can charge it conveniently at home using a standard outlet, or utilize any public AC charging station with the appropriate cable. However, the car's built-in charger (inverter) limits the maximum AC charging speed to 11 kW, which translates to roughly 38 miles of range added per hour.

For faster charging, use DC fast-charging stations. The Peugeot e-408 58 kWh (2024-...) supports a maximum DC charging rate of 120 kW, but it's important to note that battery temperature and current charge level can affect the actual charging speed you'll experience.

To estimate charging time, rate, and cost, you can use EV Charging Calculator.

How big is it? What are the dimensions (length, width, height)?

Peugeot e-408 58 kWh (2024-...) comes in the following dimensions:

- Length: 184.5 in
- Width: 81.2 in (including side mirrors) or 73.2 in (excluding side mirrors)
- Height: 58.2 in
- Wheelbase: 109.7 in (distance between the center of the front and rear wheels)
- Curb weight: 3977 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

Behind the rear seats of the Peugeot e-408 58 kWh (2024-...), you'll find 16.6 cubic feet of storage space (№87 out of 154 ranked positions, among 843 electric vehicles, with some cars sharing positions).

Folding down the rear seats expands the total cargo capacity to 54.6 cubic feet (Nº79 out of 178 ranked positions, among 843 electric vehicles, with some cars sharing positions).

The car doesn't have a "frunk" (front trunk).

Is it suitable for towing? What is the maximum towing capacity?

The car isn't officially rated for towing.
