

Zeekr 7X Long Range RWD (2025-...) (USA)

[Car Page ↗](#)[Charging ↗](#)[FAQs ↗](#)[Video Reviews ↗](#)

General Info

Years of Production	2025 -
Market Availability	EU
Country of Manufacture	China
Current Status	Announced
Body Style	SUV
Price USA (New/Used)	\$No data/No data

Range and Efficiency

Range EPA	No data
Range WLTP	382 mi
Range GCC	325 mi
Battery (Usable/Nominal)	94/100 kWh
Efficiency (Energy/Range)	28.9 kWh/100 mi
Efficiency (Range/Energy)	3.46 mi/kWh

Charging

Architecture	800 V
Max AC Charging	22 kW
Max DC Charging	360 kW (200 kW at 400 V)
Charge Port	CCS Type 2

Performance

Drive Type	RWD PMSM
Motor (Power/Torque)	310 kW (416 hp)/325 lb-ft
Acceleration 0-60 mph	5.7 s
Top Speed	130 mph

Dimensions

Length	188.5 in
Width (with Mirrors/no Mirrors)	82.7/76 in
Height	65 in
Wheelbase	114.2 in

Cargo and Towing

Number of Seats	5
Curb Weight	5324 lb
Cargo Volume (Trunk/Max/Frunk)	19/No data/2.3 ft3
Towing Capacity	4409 lb

About Zeekr 7X Long Range RWD (2025-...)

Overview

Get ready for the Zeekr 7X, an electrifying new SUV that's just been announced and slated for a 2025 production start! This Long Range RWD trim is all about blending impressive driving distance with that satisfying rear-wheel-drive feel, plus a handy 4409-pound braked towing capacity. Positioned as a tech-laden, premium offering, it's looking to shake up the EV SUV scene. While initially announced with EU market availability, official US pricing is still under wraps. This stylish machine promises a fresh alternative for cutting-edge electric mobility.

What's New for 2025?

For 2025, the Zeekr 7X bursts onto the scene as an entirely new model, so pretty much everything is 'new'! This Long Range RWD variant is part of the exciting launch lineup, showcasing Zeekr's latest design language and engineering prowess. Built on what's expected to be a cutting-edge EV platform, it boasts an advanced 800-volt electrical architecture, promising super-fast charging and enhanced efficiency. Expect a vehicle packed from the ground up with the latest tech and sustainable luxury, aiming to set new benchmarks in the electric SUV segment.

Design & Exterior

The Zeekr 7X Long Range RWD makes a bold statement with its sleek, futuristic design that's sure to turn heads. It's got that signature Zeekr family look – think sharp lines, a commanding presence, and super cool lighting signatures front and back. Dimension-wise, it measures a practical 188.5 inches long, 76 inches wide (mirrors excluded), and 65 inches tall, making it a well-proportioned SUV. While specific wheel designs for this trim are yet to be detailed, expect stylish alloys that complement its premium, athletic stance on the road.

Interior, Tech & Cargo

Step inside the Zeekr 7X Long Range RWD, and you'll likely find a cabin that's both minimalist and massively tech-forward, a Zeekr hallmark. Expect high-quality materials and a premium ambiance for all five occupants. For your gear, there's a useful 19 cubic feet of trunk space, plus a handy 2.3 cubic foot frunk for smaller items. Details on max cargo capacity with seats folded are still to come. A massive central touchscreen and crisp digital driver's display will undoubtedly handle infotainment, with Apple CarPlay and Android Auto likely standard.

Performance & Driving Experience

The Zeekr 7X Long Range RWD isn't just about looks; it packs a decent punch! It scoots from 0 to 60 mph in a brisk 5.7 seconds, thanks to its single Permanent Magnet Synchronous Motor (PMSM) sending approximately 416 horsepower and 325 lb-ft of torque to the rear wheels. This RWD setup promises an engaging drive with balanced handling, while still delivering a comfortable ride expected of a premium SUV. Naturally, it'll feature sophisticated regenerative braking modes to help you claw back some precious miles on the move.

Range, Battery & Charging

Go the distance with the Zeekr 7X Long Range RWD! It features a substantial 94 kWh usable battery, delivering a Green Cars Compare estimated real-world range of 325 miles. Efficiency is a solid 3.46 miles per kWh. At home, its stonking 22 kW standard AC on-board charger could refill the battery in around 4.5 hours. On the road, its 800V architecture allows for a blistering 360 kW max DC fast charging. While the EU model gets CCS Type 2, a US version would likely sport CCS Type 1 or NACS.

Safety & Driver-Assistance Features

While official US safety ratings from NHTSA are pending for the newly announced Zeekr 7X, expect it to be engineered with a strong focus on occupant protection. Given its premium positioning and tech-forward nature, a comprehensive suite of advanced driver-assistance systems (ADAS) will almost certainly be on board. Look for features like adaptive cruise control, lane-keeping assist, blind-spot monitoring, and automated emergency braking, many of which are likely to be standard on the Long Range RWD trim, helping to keep you and yours safe on every journey.

Warranty & Maintenance Coverage

As the Zeekr 7X Long Range RWD is newly announced, specific US warranty and maintenance details are still to be confirmed. However, expect coverage competitive with other premium EVs – typically a basic vehicle warranty around 4 years/50,000 miles, and a battery warranty of at least 8 years/100,000 miles, including protection against significant degradation. Details on complimentary maintenance schedules or powertrain warranty will be revealed closer to its potential US launch. Being a fresh model, long-term reliability insights will emerge post-launch, but Zeekr benefits from Geely's global backing.

How powerful is it? How fast does it accelerate?

The Zeekr 7X Long Range RWD (2025-...) achieves a 0 to 60 mph acceleration in 5.7 seconds (placing it at **Nº41 out of 118 ranked positions**, among 951 electric vehicles, with some cars sharing positions) and attains a maximum speed of 130 mph.

Its powertrain provides a power output of up to 310 kW (416 hp) and a torque of 325 lb-ft.

How far can it go on single charge? What is the real-world range?

Zeekr 7X Long Range RWD (2025-...) achieves a real-world range of 325 miles, placing it at **Nº51 among 264 ranked positions**. However, this range is subject to several influences:

- Speed: Traveling at higher speeds reduces battery life.
- Temperature: Extreme cold or hot weather can affect range.
- Terrain: Hilly or mountainous landscapes decrease range.
- Driving habits: Aggressive driving with frequent acceleration and braking consumes more energy.
- Feature usage: Climate control and media systems also influence range.

It's important to acknowledge that these are estimations, and your actual driving range may differ. Consider these factors when planning your trip and be ready for potential charging stops.

Utilize the [interactive EV Navigation map](#) for trip planning assistance.

What charging options are available? How long does it take to

charge it?

The Zeekr 7X Long Range RWD (2025-...) in the USA comes with a CCS Type 2 charging port. It can be charged at home using a standard domestic socket or at any public AC charging station with the compatible cable. It's important to note that the car's on-board charger (inverter) limits the maximum AC charging rate to 22 kW, resulting in approximately 68 miles of range added per hour of charging.

For significantly faster charging, public DC fast-charging stations are available. Although the car can achieve a maximum DC charging rate of 360 kW, factors such as battery temperature and charge level may affect the actual charging speed.

Use [EV Charging Calculator](#) to estimate charging time, rate, and cost.

How big is it? What are the dimensions (length, width, height)?

The size and weight specifications for Zeekr 7X Long Range RWD (2025-...) are as follows:

- Length: 188.5 in
- Width: 82.7 in (including side mirrors) or 76 in (excluding side mirrors)
- Height: 65 in
- Wheelbase: 114.2 in (distance between the center of the front and rear wheels)
- Curb weight: 5324 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

The rear cargo area of the Zeekr 7X Long Range RWD (2025-...) provides 19 cubic feet of space when the rear seats are upright ([Nº70 out of 162 ranked positions](#), among 951 electric vehicles, with some cars sharing positions).

Folding these seats down unlocks a maximum cargo capacity of cubic feet ([Nº out of ranked positions](#), among 951 electric vehicles, with some cars sharing positions).

In addition, the car has a frunk, a front compartment with 2.3 cubic feet dedicated to smaller items.

Is it suitable for towing? What is the maximum towing capacity?

The Zeekr 7X Long Range RWD (2025-...) is officially rated to tow 4409 lbs. This applies to trailers equipped with brakes.
