General Info

Years of Production	2025 -
Market Availability	EU, USA
Country of Manufacture	Italy
Current Status	Announced
Body Style	Coupe
Price USA (New/Used)	\$No data/No data

Range and Efficiency

Range EPA	300 mi
Range WLTP	296 mi
Range GCC	268 mi
Battery (Usable/Nominal)	116/120 kWh
Efficiency (Energy/Range)	43.3 kWh/100 mi
Efficiency (Range/Energy)	2.31 mi/kWh

Charging

Architecture	730 V
Max AC Charging	7.2 kW
Max DC Charging	350 kW (250 kW at 400 V)
Charge Port	CCS Type 1

Performance

Drive Type	AWD 4 motors: 2 PMSM (front), 2 PMSM (rear)
Motor (Power/Torque)	1400 kW (1900 hp)/1726 lb-ft
Acceleration 0-60 mph	1.9 s
Top Speed	186 mph

Dimensions

Length	193.4 in
Width (with Mirrors/no Mirrors)	80.1/No data in
Height	47.8 in
Wheelbase	108.1 in

Cargo and Towing

Number of Seats	2
Curb Weight	5075 lb
Cargo Volume (Trunk/Max/Frunk)	No data
Towing Capacity	No data

About Pininfarina B95 (2025-...)

The Pininfarina B95 (2025-...) is an all-electric coupe. Production of the car hasn't started yet.

The Pininfarina B95 (2025-...) has a 120 kWh battery pack, allowing it to travel up to 268 mi on a single charge — ranked №344 out of 933 electric vehicles.

Automobili Pininfarina announced the B95 for 2025 as a limited series of just 10 vehicles, with the base price of around \$4.8 million.

How powerful is it? How fast does it accelerate?

The Pininfarina B95 (2025-...) achieves a 0 to 60 mph acceleration in 1.9 seconds (placing it at **№3 out of 118 ranked positions**, among 933 electric vehicles, with some cars sharing positions) and attains a maximum speed of 186 mph.

Its powertrain provides a power output of up to 1400 kW (1900 hp) and a torque of 1726 lb-ft.

How far can it go on single charge? What is the real-world range?

Pininfarina B95 (2025-...) achieves a real-world range of 268 miles, placing it at **№106 among 262 ranked positions**. However, this range is subject to several influences:

- Speed: Traveling at higher speeds reduces battery life.
- Temperature: Extreme cold or hot weather can affect range.
- Terrain: Hilly or mountainous landscapes decrease range.
- Driving habits: Aggressive driving with frequent acceleration and braking consumes more energy.
- Feature usage: Climate control and media systems also influence range.

It's important to acknowledge that these are estimations, and your actual driving range may differ. Consider these factors when planning your trip and be ready for potential charging stops.

Utilize the [interactive EV Navigation map](#) for trip planning assistance.

What charging options are available? How long does it take to charge it?

The Pininfarina B95 (2025-...) in the USA comes with a CCS Type 1 charging port. It can be charged at home using a standard domestic socket or at any public AC charging station with the compatible cable. It's important to note that the car's on-board charger (inverter) limits the maximum AC charging rate to 7.2 kW, resulting in approximately 15 miles of range added per hour of charging.

For significantly faster charging, public DC fast-charging stations are available. Although the car can achieve a maximum DC charging rate of 350 kW, factors such as battery temperature and charge level

may affect the actual charging speed.

Use [EV Charging Calculator](#) to estimate charging time, rate, and cost.

How big is it? What are the dimensions (length, width, height)?

The size and weight specifications for Pininfarina B95 (2025-...) are as follows:

- Length: 193.4 in
- Width: 80.1 in (including side mirrors) or in (excluding side mirrors)
- Height: 47.8 in
- Wheelbase: 108.1 in (distance between the center of the front and rear wheels)
- Curb weight: 5075 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

The rear cargo area of the Pininfarina B95 (2025-...) provides cubic feet of space when the rear seats are upright ([Nº out of ranked positions](#), among 933 electric vehicles, with some cars sharing positions).

Folding these seats down unlocks a maximum cargo capacity of cubic feet ([Nº out of ranked positions](#), among 933 electric vehicles, with some cars sharing positions).

The car doesn't have a "frunk" (front trunk).

Is it suitable for towing? What is the maximum towing capacity?

The car isn't officially rated for towing.
