

Zeekr X Core RWD (2025-...) (USA)

[Car Page ↗](#)[Charging ↗](#)[FAQs ↗](#)[Video Reviews ↗](#)

General Info

Years of Production	2025 -
Market Availability	EU
Country of Manufacture	China
Current Status	Produced
Body Style	SUV
Price USA (New/Used)	\$No data/No data

Range and Efficiency

Range EPA	No data
Range WLTP	205 mi
Range GCC	175 mi
Battery (Usable/Nominal)	49/51 kWh
Efficiency (Energy/Range)	28 kWh/100 mi
Efficiency (Range/Energy)	3.57 mi/kWh

Charging

Architecture	400 V
Max AC Charging	11 kW
Max DC Charging	130 kW
Charge Port	CCS Type 2

Performance

Drive Type	RWD PMSM
Motor (Power/Torque)	200 kW (268 hp)/253 lb-ft
Acceleration 0-60 mph	5.7 s
Top Speed	118 mph

Dimensions

Length	174.5 in
Width (with Mirrors/no Mirrors)	79.9/72.3 in
Height	61.7 in
Wheelbase	108.3 in

Cargo and Towing

Number of Seats	5
Curb Weight	4409 lb
Cargo Volume (Trunk/Max/Frunk)	12.8/41.7/0.7 ft3
Towing Capacity	3527 lb

About Zeekr X Core RWD (2025-...)

Overview

The 2025 Zeekr X Core RWD is a sharp-suited compact electric SUV poised to shake up the premium segment. Hailing from Geely, the parent company of Volvo and Polestar, it shares its bones with the acclaimed Volvo EX30. This entry-level rear-wheel-drive model focuses on delivering head-turning style and a tech-forward cabin experience. While official US pricing hasn't been announced, its competitive positioning in Europe suggests it would target a wallet-friendly spot in the premium EV space, making it a seriously tempting proposition for style-conscious urban drivers.

What's New for 2025?

As a fresh face on the global scene, the 2025 Zeekr X is all-new. Its arrival marks a significant step in the brand's expansion plans beyond China. Built on the cutting-edge Sustainable Experience Architecture (SEA) platform, it benefits from the latest in EV engineering shared with its Volvo and Polestar cousins. For US buyers, the biggest news would be its potential market entry, introducing a compelling new contender with a unique blend of minimalist design, advanced technology, and a driver-focused rear-wheel-drive layout in its Core RWD trim.

Design & Exterior

This thing looks like it drove right off a designer's sketchpad. The Zeekr X boasts a chiseled, minimalist aesthetic with super clean lines, frameless doors, and striking 'Z' shaped daytime running lights that give it an unmistakable presence. It's a proper compact, measuring 174.5 inches long, 72.3 inches wide, and 61.7 inches tall, making it perfect for city streets. The Core RWD trim keeps the look sleek and sophisticated, avoiding the more aggressive touches of its all-wheel-drive sibling for a purely futuristic vibe.

Interior, Tech & Cargo

Inside, the Zeekr X Core RWD impresses with a minimalist yet high-tech cabin that feels properly premium. A massive central touchscreen dominates the dash, controlling nearly all vehicle functions, complemented by a slim digital driver's display. Passenger space for five is surprisingly good for its class. Practicality is solid, with 12.8 cubic feet of trunk space, expanding to a generous 41.7 cubic feet with the seats folded. There's even a tidy 0.7 cubic foot frunk up front, perfect for stashing your charging cables.

Performance & Driving Experience

Don't let its entry-level status fool you; the Core RWD is no slouch. Its single Permanent Magnet Synchronous Motor (PMSM) sends a healthy 268 horsepower and 253 lb-ft of torque directly to the rear wheels. That's enough grunt to launch the Zeekr X from 0-60 mph in a brisk 5.7 seconds, with a top speed of 118 mph. The rear-drive setup promises a more engaging and balanced driving feel than front-drive rivals, delivering smooth, instant power that makes it a joy to pilot through city traffic and on twisty roads.

Range, Battery & Charging

The Core RWD is equipped with a 49 kWh usable battery pack. Based on Green Cars Compare's calculations, this delivers a real-world range of about 175 miles, with an excellent efficiency of 3.57 mi/kWh, making it an ideal urban runabout. When it's time to plug in, it can handle DC fast charging at up to 130 kW.

For home charging, the standard 11 kW on-board charger will easily handle overnight top-ups. For a US launch, it would almost certainly adopt the NACS or CCS1 charging port for seamless compatibility.

Safety & Driver-Assistance Features

While official US safety ratings are pending, the Zeekr X has already proven its mettle by earning a top-tier 5-star rating from the stringent Euro NCAP. It's expected to arrive packed with a comprehensive suite of advanced driver-assistance systems (ADAS) as standard. This should include features like adaptive cruise control, lane-keeping assist, automatic emergency braking, and blind-spot monitoring, ensuring a confident and secure driving experience that's on par with the best in the premium compact segment.

Warranty & Maintenance Coverage

Official US warranty details will be confirmed if the Zeekr X launches stateside, but coverage is expected to be highly competitive. Based on its European offerings and segment standards, expect a basic vehicle warranty around 4 years/50,000 miles. The crucial battery and drivetrain components will likely be covered for 8 years/100,000 miles, with a guarantee against significant degradation. Backed by the global might of Geely, long-term reliability and support should be strong, providing excellent peace of mind for early adopters.

How powerful is it? How fast does it accelerate?

The Zeekr X Core RWD (2025-...) can accelerate from 0 to 60 mph in 5.7 seconds ([Nº41 out of 119 ranked positions](#), among 968 electric vehicles, with some cars sharing positions) and reach a top speed of 118 mph.

The car's powertrain delivers up to 200 kW (268 hp) of power and 253 lb-ft of torque.

How far can it go on single charge? What is the real-world range?

Real-world range of the Zeekr X Core RWD (2025-...) is 175 miles ([Nº194 out of 264 ranked positions](#), among 968 electric vehicles, with some cars sharing positions) — depending on several factors, including:

- Speed: Higher speeds deplete the battery faster.
- Temperature: Extreme cold and hot weather impacts range.
- Terrain: Hilly or mountainous terrain reduces range.
- Driving style: Aggressive driving with frequent acceleration and braking consumes more energy.
- Use of features: Features like climate control and media system also affect range.

It's important to remember that these are just estimates, and your actual range may vary. It's always best to factor in these various factors when planning your trip and be prepared for potential charging stops.

Plan your trips using the [EV Navigation interactive map](#).

What charging options are available? How long does it take to charge it?

In the USA Zeekr X Core RWD (2025-...) has a CCS Type 2 charge port.

- You can charge it at home using a standard domestic socket or plug into any public AC charging station using the right cable. Keep in mind that the car's on-board charger (inverter) limits the

maximum AC charging rate to 11 kW, which translates to approximately 35 miles of range added per hour of charging.

- For quicker charging, consider using a compatible DC fast-charging station. The car boasts a maximum charging rate of 130 kW, but remember that battery temperature and charge level can influence the actual speed you'll experience.

Estimate charging time, rate and cost using [EV Charging Calculator](#).

How big is it? What are the dimensions (length, width, height)?

Here are the dimensions and weight for the Zeekr X Core RWD (2025-...):

- Length: 174.5 in
- Width: 79.9 in (including side mirrors) or 72.3 in (excluding side mirrors)
- Height: 61.7 in
- Wheelbase: 108.3 in (distance between the center of the front and rear wheels)
- Curb weight: 4409 lbs (weight of the empty car, no people or cargo)

How much cargo space does it offer? Does it have a front trunk?

Here's a breakdown of the Zeekr X Core RWD (2025-...) cargo space:

- Trunk capacity: With the rear seats up, you get 12.8 cubic feet of cargo space in the back ([Nº124 out of 165 ranked positions](#), among 968 electric vehicles, with some cars sharing positions).
- Max cargo capacity: Fold down the rear seats, and you open up 41.7 cubic feet of total cargo space ([Nº146 out of 200 ranked positions](#), among 968 electric vehicles, with some cars sharing positions).
- Frunk capacity: The front trunk is called a "frunk", and it offers an additional 0.7 cubic feet for storing small items.

Is it suitable for towing? What is the maximum towing capacity?

The Zeekr X Core RWD (2025-...) has a towing capacity (braked) of up to 3527 lbs (maximum weight the car can tow safely with a trailer that has its own brakes).
